

Dear Young Researchers,

We are pleased to invite you to participate in the 6th edition of the MycoRise Up! Youth Mycology Conference, taking place in Spała, Poland from April 12th to 13th, 2025. This event is co-organized by the Polish Mycological Society, students from the Faculty of Biology and Environmental Protection at the University of Łódź and PhD students from the Doctoral School of Exact and Natural Sciences and the BioMedChem Doctoral School of the University of Łódź and Łódź Institutes of the Polish Academy of Sciences.

The purpose of the conference is to provide a platform for young researchers—undergraduate, master's, and PhD students alike—to exchange knowledge in the field of mycology and gain experience in presenting scientific research. We aim to foster a welcoming and nonjudgmental environment, encouraging active participation from everyone. Therefore, we kindly ask that all attendees present their own research or a literature review.

Registration for the conference will open on January 1, 2025, and will remain available until March 16, 2025. The registration form will be available at <https://www.mycoriseup2025.pl/>. Participants may choose to present in one of two formats:

- a 9-minute oral presentation, followed by a 3-minute discussion,
- or a poster (A0 size, printed by the participant).

The conference's thematic scope is broad, covering all topics related to mycology. Presentation sessions will be organized according to the topics reflected in submitted abstracts.

The Scientific Committee will review and accept presentations based on abstract evaluation.

All abstracts should be submitted by participants to the conference email address — mycoriseup2025@gmail.com — by March 16, 2025. Please note that the abstract book will not include abstracts submitted after the deadline.

The conference is free of charge! While we do not require any participation fees, please note that accommodation and travel arrangements are the responsibility of each participant.

We look forward to welcoming you to this exciting event and sharing in the vibrant exchange of mycological research!

Warm regards,

MycoRise Up! Organizing Committee
